

Associated Clubs Guidance

Created August 2024

Clubs from outside of Derbyshire may apply to become an Associated Club of Derbyshire Youth Sailing (DYS) and take part in the DYS series. Any application to become an Associated Club will be considered by the committee each year at the DYS AGM. The decision to elect an Associated Club is entirely at the discretion of the DYS committee and only applies for the following season.

Associated clubs have to be elected each year at the AGM to continue their association. The DYS committee will look at many different considerations and maintaining a core of Derbyshire sailors and providing opportunities for Derbyshire sailors is their main priority.

The following points are likely to form the main part of the DYS committee decision when considering an application from a club to become an Associated Club:

- Location close to the Derbyshire border
- Unable to access/support other regional series in their county
- Enough sailors who are happy to join in the DYS series and travel to several venues around Derbyshire
- Happy to host an event for DYS if requested
